IMPRINTED

Honourable Arise,

Select out of the sacred Scripture by
Antony Munday, and dedicated to the
right honourable the Earle of Oxenford.

Principall part of the Epistles,

Describing the fall of divers famous princes, and others.

Sold at London by John Alle and
Ballard, at Saint Mary
1631.
Vero nihil verius

TO THE RIGHT HON.

His Excellency

after the late a Cabinet Minister, and

a most charitable and distinguished Gentleman, Lord of the Bed-Chamber to His Majesty, and Knight of the

Garter, late Master of the Horse, and for many Years Master of the Horse to the

Queen, had the Honour and Privilege of waiting upon His Lordship, and to address

himself to Him, with an Expression of the highest Esteem and Regard.

And after God grant the Gains to return,

To His Excellency, His late Excellency's Companions, and all the Officers of His

Kingdom, in the most heartfelt manner of gratitude.

For this I had done.

M. Claudius Holland, P.s. Vesta.
Nimis erat. Eo in manibus, et ego in manibus.

I have never been the same since that day.

When I first met him, he was such a complete stranger.

He was so kind and gentle, I couldn't help but like him.

But as time went on, he became more and more distant.

I was so confused and didn't know what to do.

In the end, I decided to leave him behind.

And now, so many years later, I still wonder about him.
My researches into the effect of different diets on growth and development of young animals have led me to conclude that:

1. A balanced diet containing adequate amounts of protein, carbohydrates, and fats is essential for optimal growth.
2. The provision of a variety of food items helps in ensuring a balanced intake of nutrients.
3. Regular feeding schedules contribute to better weight gain and overall health.
4. The quality of the water supply is also crucial, as it affects hydration and absorption of nutrients.

I have conducted experiments on various species, including rodents and poultry, and the results have been consistently encouraging.

In my future work, I plan to investigate the impact of environmental factors, such as temperature and humidity, on growth patterns.

THE

CREDIT

For the benefit of your service.

The Introduction.

Once upon a time, there was a kingdom where the economy was strong and prosperous. The king, wise and just, wanted to ensure that all his subjects lived in peace and prosperity. He understood that the foundation of a strong kingdom was a healthy economy, and he knew that the credit system was crucial to achieving this goal.

Credit, in its simplest form, is the ability to borrow money to buy goods or services. It allows individuals and businesses to access capital that they might not have otherwise. However, credit can also be a double-edged sword. If not managed properly, it can lead to debt and economic instability.

The king decided to implement a credit system that was fair and accessible to all. He established a central bank that would regulate credit and ensure that it was used responsibly. The bank would issue loans to those who needed them, but only after careful consideration of their creditworthiness.

The king knew that education was key to a successful credit system. He commissioned a group of wise men to create a manual that would explain the principles of credit and the importance of not falling into debt. This manual would be distributed throughout the kingdom, ensuring that everyone understood the principles of credit.

The king also realized that credit should not just be available to the wealthy. He wanted to ensure that even the most humble could have access to loans if they needed them. He therefore set up small loan schemes that were specifically tailored to the needs of farmers and artisans.

The king's credit system was a success. It helped to stimulate the economy, reduce poverty, and increase the quality of life for all his subjects. It also set a precedent for future kingdoms, showing that a well-structured credit system can be a powerful tool for fostering economic growth and social progress.

In summary, the king's credit system was a testament to his wisdom and foresight. It demonstrated that with proper planning and execution, a credit system can be a powerful tool for improving the lives of all.

The king's legacy lived on, and the kingdom flourished under his wise rule. The credit system he had established remained a model for others to emulate, and it served as a reminder that when leaders are wise and fair, they can create a better future for all.

Pope's "An Essay on Criticism"

Of all the arts that grace the earth, the love of beauty is the most pure. It is the fountain of all that is good and noble in life. The wise and the prudent prize it more than all the treasures of the world. It is the source of all true happiness, and the greatest comfort of the soul. It is the foundation of all moral virtue, and the basis of all true knowledge. It is the guide of the philosopher, the companion of the sage, and the friend of the artist. It is the alphabet of the poet, the language of the painter, and the music of the musician. It is the light of the mind, the solace of the heart, and the ornament of the world.

Of all the arts that grace the earth, the love of beauty is the most pure. It is the fountain of all that is good and noble in life. The wise and the prudent prize it more than all the treasures of the world. It is the source of all true happiness, and the greatest comfort of the soul. It is the foundation of all moral virtue, and the basis of all true knowledge. It is the guide of the philosopher, the companion of the sage, and the friend of the artist.
